Description of Activity: Fly Three (3) Custom Drones while Inspire 2 captures video

FLIGHT RUN BREAKDOWN (MT. LEE)

- Drones take off in a staggered fashion along the takeoff route, and then proceed to their designated altitude
- Once they reach the designated altitude and airspace (circled location), the drone will circle / fly in that airspace.
- The Camera Drone always remains on the perimeter of the pteranodon circle (at least 50 ft).
- Drones do not always fly together, occasionally a single drone will fly and perform varied routes within the designated airspace.
- All operators are on a closed communication system with an Expert 107 Pilot and Aerial Director.
- Test flights are performed the morning of the event to ensure all conditions are safe
- The circular nature of the flight path has been designed to create the most basic flight characteristics so all drones perform consistently.
-

Safety Assertions

*All basic Part 107 and FAA regulations are always followed and inherent within the safety guidelines.

- Landing Zone is strategically placed behind a heavily brushed area far at the furthest point of the dirt platform
- When multiple drones are in the air they are locked into their designated altitude
- Drones never fly over people, and are kept over the desert brush
- The Camera Drone always remains on the perimeter of the pteranodon circle (at least 50 ft).
- We will be utilizing ITC when drones take-off and land near the trails. The rest of the flight path is over mountainous area restricted to people.
- All operators are on a closed communication system with an Expert 107 Pilot and Aerial Director.
- Test flights are performed the morning of the event to ensure all conditions are safe
- The circular nature of the flight path has been designed to create the most basic flight characteristics so all drones perform consistently.

NOT PERMITTED

Additional Details:

- The drones will only be flying during the desired times as directed / specified by the director and Drone camera director, and will always stay within the set flight path.
- We will be utilizing a DJI Inspire 2 to capture aerial video
- CONTENT STRATEGY: During the event, the custom drones will be circling while the Inspire 2 gets video content of them flying.
- FAA Airspace Authorization to be submitted to Burbank Airport (KBUR) through LAANC

LOCATION #2

July 1st: Echo Park Lake - Los Angeles

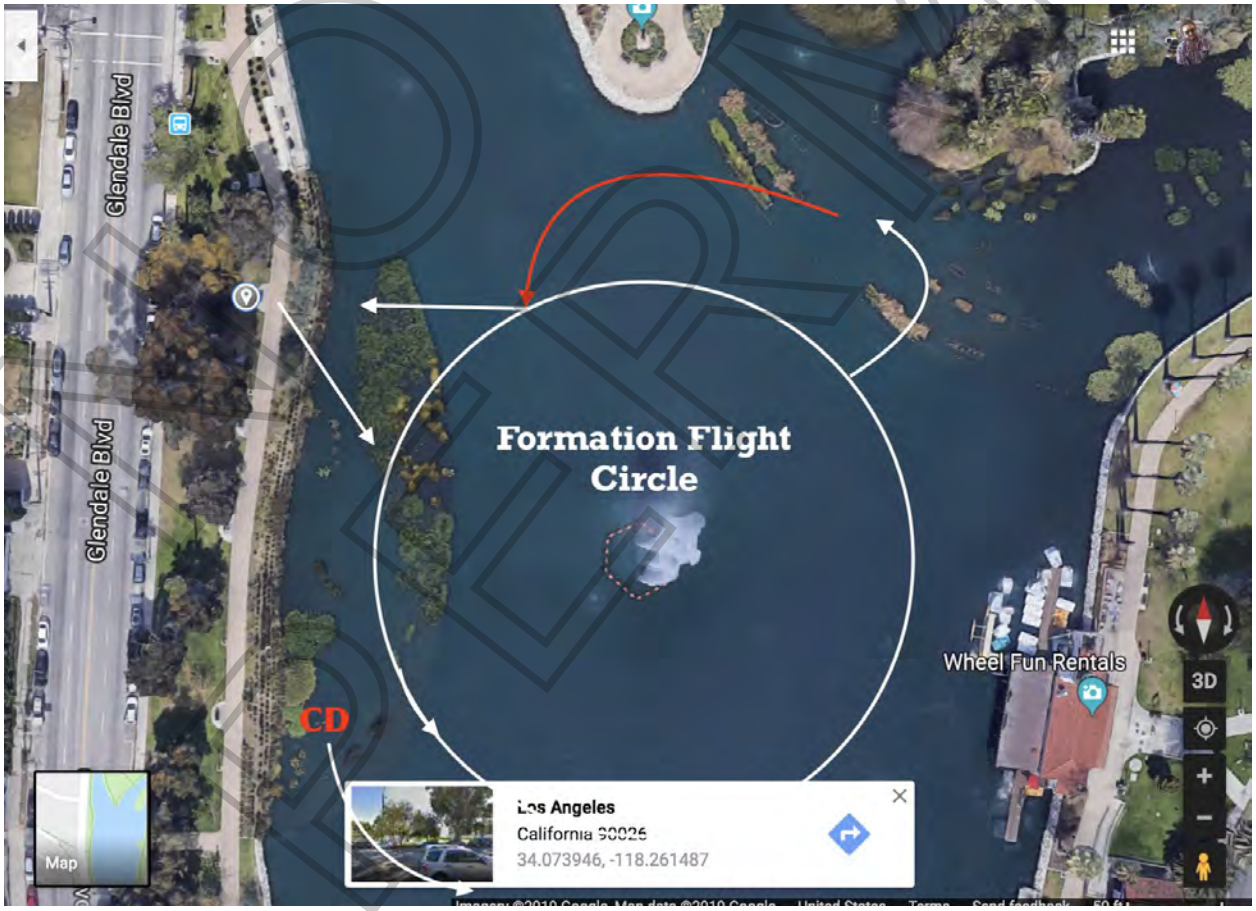
PERMIT

Take-off/Landing Zone: (see map below - labeled LZ)

Description of Activity: Fly Three (3) Custom Drones while Inspire 2 captures video

FLIGHT RUN BREAKDOWN (ECHO PARK)

- Take off and landing happens in the fully clear and closed space marked with GPS coordinates (LZ).
- Drones take off in a staggered fashion along the takeoff route, and then proceed to their designated altitude
- Once they reach the designated altitude and airspace (circled location), the drone will circle / fly in that airspace around the fountain.
- The Camera Drone always remains on the perimeter of the pteranodon circle (at least 50 ft).
- Drones do not always fly together, occasionally a single drone will fly and perform varied routes within the designated airspace
- The Red Line designates a “fly by” done by the low flier only, where it deviates slightly from the circles and then joins back into the path.



*CD represents camera drone which keeps a 50 foot perimeter from all other drones.

DRAFT

Safety Assertions

*All basic Part 107 and FAA regulations are followed indefinitely and inherent within the safety guidelines.

- Again, we will be utilizing ITC when drones take-off and land near the walkway. The rest of the flight path is over Echo Park Lake.
- When multiple drones are in the air they are locked into their designated altitude
- Drones never fly over people, and are kept over the lake
- All operators are on a closed communication system with an Expert 107 Pilot and Aerial Director.
- Test flights are performed the morning of the event to ensure all conditions are safe
- The circular nature of the flight path has been designed to create the most basic flight characteristics so all drones perform consistently.

Additional Details:

- The drones will only be flying during the desired times as directed / specified by the director and Drone camera director, and will always stay within the set flight path.
- Pedestrian Walk-way will be blocked off when drones are taking off, in-flight and landing.
- We will be utilizing a DJI Inspire 2 to capture aerial video.
- CONTENT STRATEGY: During the event, the custom drones will be circling while the Inspire 2 gets video content of them flying.

Appointment of Film Permits Unlimited, Inc.
As Authorized Agent and representative

I certify that I am a representative of HELO, INC. **("Principal") and am authorized to enter into binding contractual agreements on it's behalf. I further certify that I am authorizes by Principal to appoint other representatives and agents for Principal and to give such representatives and agents authority to enter into and bind Principal to agreements relating to the issuance of and compliance with location film (e.g. theatrical, television, commercial and other motion picture filming) and still photographic permits, including the permits themselves and any riders to such permits. Acting on behalf of Principal in my capacity as its authorized representative, I appoint Film Permits Unlimited, Inc. and it's employees and agents ("FPU") as Principal's authorized representatives and agents to apply for location film (e.g. theatrical, television, commercial and other motion picture filming) and still photographic permits on behalf of Principal through Film LA, Inc., any city and county, or through any other jurisdiction: to negotiate, discuss, accept, modify, agree to and bind Principal to the terms and conditions of such permits (including all restrictions and /or community guidelines applicable to any such permit): and to execute such permits on behalf of Principal. Principal understands, acknowledges and agrees that it (and/or its insurer) remains responsible and liable for all obligations imposed by or Incidental to any permit or rider issued to Principal signed by an employee or agent of (including any coordinator, runner or messenger used by) FPU. Principal further agrees to comply with the terms and conditions of any such permits and hereby appoints FPU as an authorized representative to facilitate compliance with such terms and conditions following issuance of any such permits and to enter into agreements for Principal with respect thereto. Any person, agency, entity, or organization (including Film LA, Inc. and any city county or other jurisdiction) may rely upon this appointment and need not obtain further authorization for any act described herein. An original or faxed copy of this appointment shall be sufficient, and may be treated as an original for all purposes. The appointment may be revoked by Principal at any time in writing, but in any case, shall expire one (1) year from the date of execution set forth below.**

I declare under penalty of perjury under the laws of the State of California that I am authorized to appoint FPU as agent for Principal, and based upon that authority I hereby appoint FPU as Principal's agent as set forth herein.

NOT A PERMIT

SPECIAL FILMING CONDITIONS
ECHO PARK & ELYSIAN PARK

The Special Filming Conditions described below will be included in the terms and conditions of permits issued for filming in this area and are in addition to the standard terms and conditions applicable to filming permits generally. The decision whether or not a particular permit will be issued is vested in the discretion of the appropriate City or County department or their designees (including FilmL.A.), to be exercised consistent with public health, safety and general welfare, and applicable land-use ordinances.

Echo Park is a community that includes historic Echo Park Lake and the Recreation Center, a vibrant retail commercial district, and historic Elysian Park, the oldest regional park in the city. These Special Conditions apply to the area between Echo Park Avenue, the Hollywood (101) freeway, Alvarado Boulevard North to Glendale Boulevard, Glendale Boulevard, Allesandro Street, Riverside Drive, the Recreation and Parks (RAP) boundary west of Stadium Way, Elysian Park Avenue, and Sunset Boulevard back to Echo Park Avenue. The district includes Boylston Street but excludes Elysian Park and Echo Park Lake recreation facilities and park land. Over the past several years, location filming in Echo Park has increased significantly without a system for adequately addressing the impacts this brings to the community.

The motion picture industry has amicably co-existed with the businesses and residents of this area since the silent film era and desires to continue to do so. These conditions are designed to promote cooperation between film companies, local businesses and residents so that each group can effectively utilize this diverse area. Violation of any of the conditions outlined below may result in permit revocation or other administrative action.

The community of Echo Park is home to many regularly scheduled local events: Farmers Market every Friday from 3:00 p.m. to 7:00 p.m., Lotus Festival the second weekend in July, the Cuban Festival, the Echo Park Music Festival, the December Community Parade, the El Centro del Pueblo Street Festival, and the Los Angeles, ½ Marathon. A community event's calendar shall be established. Approving permits that conflict with any of these events is strongly discouraged.

1. FilmL.A. shall consult the City Council Office when an applicant requests a permit with less than three (3) days notice.

2. Affected residents/merchants/businesses must be notified in English and Spanish at least two (2) days in advance of the first day of filming or in advance of any substantial preparation for all productions.

3. The following activities require extended notification to the affected community at least three (3) days prior to the work:

    - Use of a helicopter
    - Use of pyrotechnics
    - Gunfire (except for the use of Non-guns, which is highly encouraged).

    The production company must notify the local LAPD division on the day of filming prior to the use of any of the above.

4. A community survey is required for Exceptional Filming Activities, which include:

    - Full Street closures
    - Any filming prior to 7:00 a.m. or after 10:00 p.m.
    - Filming for more than three (3) consecutive days at any single location or multiple locations where there is an overlap of the affected residents and merchants.

NOT A PERMIT

FilmL.A. will consult with the City Council Office, the LAFD, and the LAPD on a case by case basis to determine the noise levels, safety requirements, and appropriate personnel assignments. A FilmL.A. monitor will be assigned to permits with Exceptional Filming Activities.

5. The downtown Echo Park area is home to many institutions and businesses that have contributed greatly to the improvement of the neighborhood. When requesting partial or full street closures, or posted no parking, production companies must conduct a community survey of affected properties on the following blocks: 1600, 1700, 1800, 1900 blocks of Sunset Boulevard, 1100 block of Glendale Boulevard, 1100 block of Lemoyne Street, 1100 block of Logan Street, 1100 block of Echo Park Avenue. The following public streets have also been heavily impacted by filming over the years: Park Drive, Bellevue Avenue, Stadium Way, Academy Road, Morton Avenue, and Alvarado Street. FilmL.A. and the appropriate city council office will monitor frequency of filming on these streets and all others, within the Echo Park Film District. FilmL.A. will look for ways to mitigate the impacts of filming prior to issuing a permit and utilize the community calendar as a reference.

6. Requests for the posting of "No Parking" for production equipment and/or filming will be reviewed by FilmL.A. with the intention of mitigating parking concerns for residents, merchants, and patrons in the area, with special attention given to the frequently filmed streets. The parking of production vehicles on public streets may not exceed 500 linear feet combined, but can be dedicated to one side of the street or, where appropriate street width allows, split between both sides of a street. Requests for more than 500 linear feet of parking shall require a signature survey of those affected by the proposed additional parking. Upon completion of filming, companies are requested, as a courtesy, to turn all "No Parking" signs around so that they face in the opposite direction. Only the Los Angeles Department of Transportation (DOT) is to post and remove the signs.

7. Generators are to be placed in an acceptable location within all affected residential and commercial areas. Support by all addresses within 50 linear feet of the generator is required. Alternative fuels (such as bio-diesel) and low emission generators are strongly encouraged.

8. Parking of production vehicles shall not impede, block from view, nor interfere in any way with public transit stops throughout the Echo & Elysian Park areas. Should any transit stop or schedule be altered for a film shoot, only the Metropolitan Transit Authority (MTA) or DOT is authorized to make that determination.

9. The following areas are prohibited from use: City Parking lots 662, 663, and 646, and either side of Academy Road between Morton Avenue and Elysian Park Drive.

10. All productions must coordinate with FilmL.A. to secure relaxed enforcement of parking from DOT, either side of any street that has posted street cleaning or any production shoot that takes place in a permitted overnight parking district (OPD). They must also be mindful of other existing parking restrictions including Preferential Parking Districts and Parking Meter Districts while planning their location shoot. They must then notify all residents in English and Spanish, that there will be relaxed enforcement by the Department of Transportation.

11. Cast/Crew is not permitted to park on area streets. Off street parking must be provided for personal vehicles.

NOT A PERMIT

12. Only Honey Wagon type portable restrooms or executive portable rest rooms are allowed in the District, and must be at least 100 feet away from any food establishments, in a mutually acceptable location of all other commercial and residential buildings.

13. Companies must provide adequate detour and directional signage when street closures are in place, and conform to all current DOT standards and practices. Changeable Message Signs (CMS) will be required on the day(s) of filming activity that requires a full closure on any major thoroughfare, as defined by DOT. Sufficient, approved notification signs are sufficient and must be in place in advance of filming activity and must include the dates and times of closures. Street closures are considered an Exceptional Filming Activity and require a FilmL.A. monitor.

14. FilmL.A. will coordinate with Public Works to ensure that no regularly scheduled service will be interrupted including, trash pick up, tree trimming, street repair, street cleaning, etc.

15. FilmL.A. shall work closely with the Dodgers regarding all filming in and around the Echo Park, Elysian Valley, or Chinatown communities during the period of March 25 through November 5 (Dodger season).

16. Crews with walkie-talkies must wear headsets when filming within the District between 7:00 p.m. – 7:00 a.m.

17. Outdoor food preparation using charcoal or gas grills must be utilized out of public view to all adjacent residential buildings or homes and commercial properties.

18. Production companies are required to remove all self generated trash, food, and cardboard boxes, from the general vicinity at the end of each filming day. This includes any debris generated by catering companies employed to provide food for the cast and crew. Any surplus food can only be given to off-site charitable organizations.

LOCATION

July 10th: Mt. Lee Drive & Mulholland Trail - Los Angeles

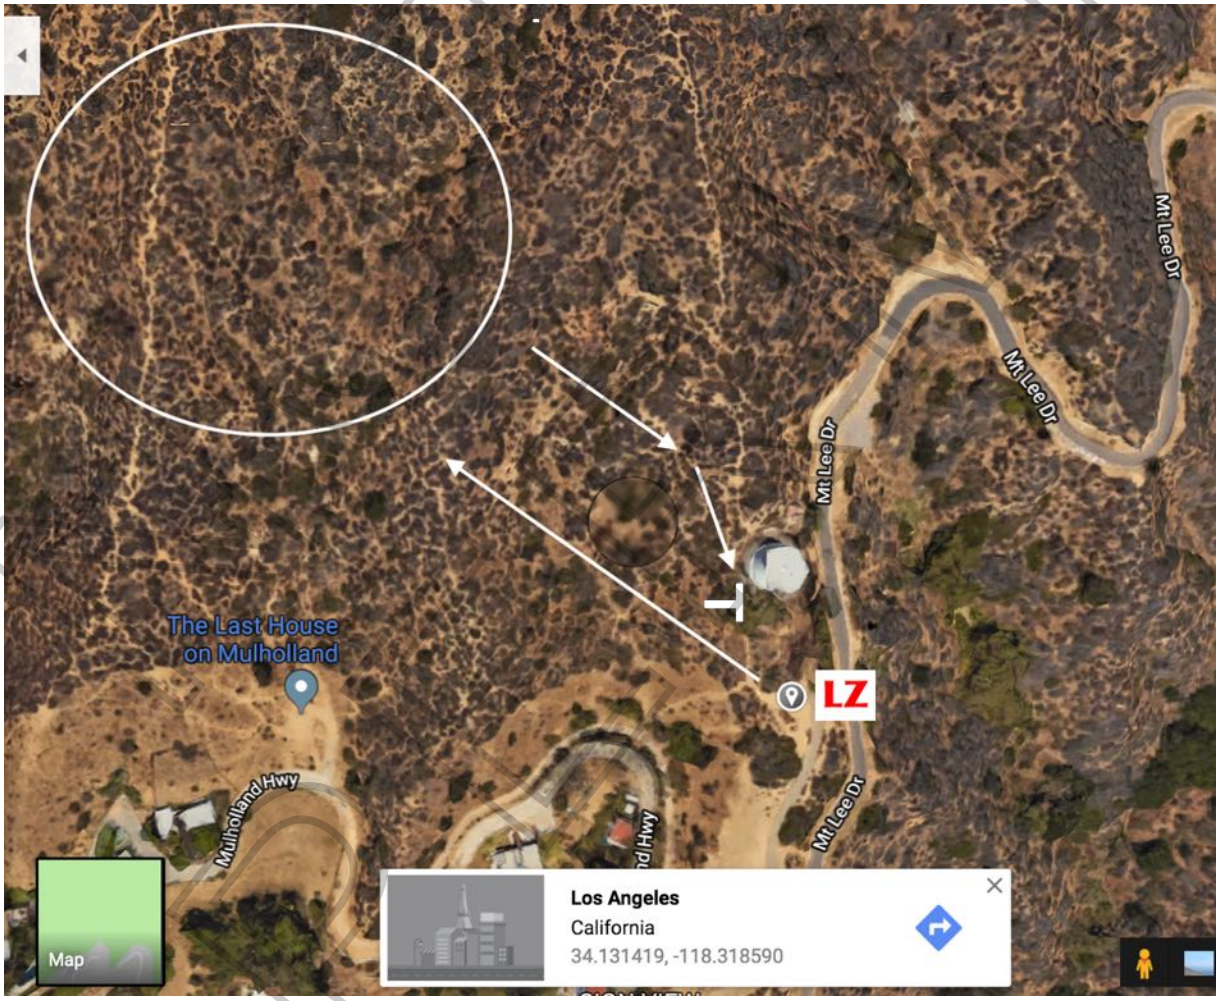
Take-off/Landing Zone: (see map below - labeled LZ)

Description of Activity: Fly Three (3) Custom Drones while Inspire 2 captures video

FLIGHT RUN BREAKDOWN (MT. LEE)

NOT A PERMIT

- Drones take off in a staggered fashion along the takeoff route, and then proceed to their designated altitude
- Once they reach the designated altitude and airspace (circled location), the drone will circle / fly in that airspace.
- The Camera Drone always remains on the perimeter of the pteranodon circle (at least 50 ft).
- Drones do not always fly together, occasionally a single drone will fly and perform varied routes within the designated airspace.
- All operators are on a closed communication system with an Expert 107 Pilot and Aerial Director.
- Test flights are performed the morning of the event to ensure all conditions are safe
- The circular nature of the flight path has been designed to create the most basic flight characteristics so all drones perform consistently.



Safety Assertions

*All basic Part 107 and FAA regulations are always followed and inherent within the safety guidelines.

- Landing Zone is strategically placed behind a heavily brushed area far at the furthest point of the dirt platform
- When multiple drones are in the air they are locked into their designated altitude
- Drones never fly over people, and are kept over the desert brush
- The Camera Drone always remains on the perimeter of the pteranodon circle (at least 50 ft).
- We will be utilizing ITC when drones take-off and land near the trails. The rest of the flight path is over mountainous area restricted to people.
- All operators are on a closed communication system with an Expert 107 Pilot and Aerial Director.
- Test flights are performed the morning of the event to ensure all conditions are safe
- The circular nature of the flight path has been designed to create the most basic flight characteristics so all drones perform consistently.

Additional Details:

- The drones will only be flying during the desired times as directed / specified by the director and Drone camera director, and will always stay within the set flight path.
- We will be utilizing a DJI Inspire 2 to capture aerial video
- CONTENT STRATEGY: During the event, the custom drones will be circling while the Inspire 2 gets video content of them flying.
- FAA Airspace Authorization to be submitted to Burbank Airport (KBUR) through LAANC
